About Us

DKC Foreign Trade Incorporation company provides consultancy services for many issues in international business and also produces and sells many products under its own brands or contracted company's brand. DKC Textile is one of the brands of the DKC Foreign Trade Incorporation Company.

In order to learn more about our company check our web site www.dkctrade.com.tr

DKC textile products are produced from 100% natural cotton yarn and bamboo yarn and microfiber which are accepted in the world, and the product dyes are completely natural and hygienic. It is resistant to long washes. The natural cotton we use in our products made of cotton yarn increases the water absorption rate. Our products made of bamboo yarn and microfiber provide comfort and convenience. All of our products are produced 100% locally in factories in Turkey.

Our products are produced in high technologic machines, and quality controls of each product are carried out by our experienced staff by checking each product one onether.

In our doobby and jacquard machine park, products can be produced in desired sizes and patterns. After the preliminary samples are prepared according to the demand of our customers and the customer's approval is received than the final mass production is started.

DKC Textile is a trademark of DKC Foreign Trade Incorporation

that is the authorized company for oversea sales and has power license for dealers.
